PREFACE

8

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details of the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains an alphabetical list of maps registered in the Copyright Office in Class F from January 1, 1947, through June 30, 1947. Renewal registrations in this class made in this period are listed in Part 14A of the Catalog.

ARRANGEMENT. This catalog consists of complete main entries under "authority" as used in map cataloging practice by the Library of Congress (i.e., the name of the person, firm, institution, or other agency primarily responsible for the content of the map), which term is not always synonymous with the term "author" as used in the Copyright Act. Within the same alphabet cross references from the geographical areas represented by the maps are given, as well as from copyright claimants, editors, compilers, etc.

ENTRY. The main entry includes, in addition to the authority, the title; the edition; and a brief physical description consisting of the size of the map in centimeters (height followed by width) and the scale as it appears on the map. When another map of equal importance is printed on the back of the sheet, its title is included in the entry for the purpose of describing the deposit, preceded or followed by the words "on verso"; when two or more maps appear on the verso, the number of such maps is given. Cross references from the areas of all maps specifically mentioned by title in the entries are included in their alphabetical place.

AREA CROSS REFERENCES. The area headings used in this catalog in cross-references consist of the name of the largest geographical or political unit enclosed within the borders of the map. When the borders of the map do not coincide in any way with a single geographical or political unit, the name of the most significant unit is used as the heading. When the map contains three or more States comprising part of one of the major geographical divisions of the United States one of the following headings is used: New England, Middle States, South Atlantic States, North Central States, South Central States, Mountain States, and Pacific States.

COPYRIGHT DATA. The statement giving the copyright facts is preceded by the Copyright symbol © and appears at the end of the main entry. The statement gives the name and address of the claimant, if different from the authority, the date of publication as defined in the Copyright Act, and the registration number. When the address follows the name of the authority in the heading, it indicates that the authority is also the copyright claimant; in these instances the name is not repeated in the copyright statement. The abbreviation "for." (meaning "foreign") following the class symbol "F" in the registration number indicates that the map was published outside the United States.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by the Act of Congress of July 30, 1947 (Title 17, U.S.C., secs. 12, 13) has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Sections 210 and 211 of the aforesaid Act. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

ORGANIZATION OF THE CATALOG. This issue of the Catalog is part of Volume I of the new Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Section 5 of the aforesaid Act. Letters are used to designate subdivisions. The following is the plan of publication for 1947:

Part 1A - Books and Selected Pamphlets.
Part 1B - Pamphlets, Serials and Contributions to Periodical Literature.
Part 2 - Periodicals.
Parts 3 & 4 - Dramas and Works Prepared for Oral Delivery.
Part 5A - Published Music.
Part 5B - Unpublished Music.
Part 6 - Maps.
Parts 7-11A - Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints and Pictorial Illustrations.
Part 11B- Commercial Prints and Labels.
Parts 12 & 13 - Motion Pictures.
Part 14A- Renewal Registrations - Literature, Art, Film.
Part 14B- Renewal Registrations - Music.

SUBSCRIPTION. The annual subscription price for the complete yearly Catalog of Copyright Entries is $10.00, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom inquiries and orders concerning the complete Catalog or any of its parts should be addressed.

CATALOG OF COPYRIGHT ENTRIES

Third Series

VOLUME I, PART 6, NUMBER 2

Maps

JULY–DECEMBER

1947

COPYRIGHT OFFICE
THE LIBRARY OF CONGRESS
WASHINGTON 25, D. C.

PREFACE

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details of the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains an alphabetical list of maps registered in the Copyright Office in Class F from July 1, 1947, through December 31, 1947. Renewal registrations in this class made in this period are listed in Part 14A of the Catalog.

ARRANGEMENT. This catalog consists of complete main entries under "authority" as used in map cataloging practice by the Library of Congress (i. e., the name of the person, firm, institution, or other agency primarily responsible for the content of the map), which term is not always synonymous with the term "author" as used in the Copyright Act. Within the same alphabet cross references from the geographical areas represented by the maps are given, as well as from copyright claimants, editors, compilers, etc.

ENTRY. The main entry includes, in addition to the authority, the title; the edition; and a brief physical description consisting of the scale as it appears on the map. When another map of equal importance is printed on the back of the sheet, its title is included in the entry for the purpose of describing the deposit, preceded or followed by the words "on verso"; when two or more maps appear on the verso, the number of such maps is given. Cross references from the areas of all maps specifically mentioned by title in the entries are included in their alphabetical place.

AREA CROSS REFERENCES. The area headings used in this catalog in cross-references consist of the name of the largest geographical or political unit enclosed within the borders of the map. When the borders of the map do not coincide in any way with a single geographical or political unit, the name of the most significant unit is used as the heading. When the map contains three or more States comprising part of one of the major geographical divisions of the United States one of the following headings is used: New England, Middle States, South Atlantic States, North Central States, South Central States, Mountain States, and Pacific States.

COPYRIGHT DATA. The statement giving the copyright facts is preceded by the copyright symbol © and appears at the end of the main entry. The statement gives the name and address of the claimant, if different from the authority, the date of publication as defined in the Copyright Act, and the registration number. The class symbol "B5" preceding the registration number signifies that the work registered was published in a periodical or newspaper. When the address follows the name of the authority and copyright symbol © in the heading, it indicates that the authority is also the copyright claimant; in these instances the name is not repeated in the copyright statement. The abbreviation "1c." (signifying "one copy") preceding the date, indicates that the map was published outside the United States.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by Title 17, U.S.C., Secs. 12, 13 has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Title 17, U.S.C., Secs. 210 and 211. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

ORGANIZATION OF THE CATALOG. This issue of the Catalog is part of Volume I of the new Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U.S.C., Sec. 5. Letters are used to designate subdivisions. The following is the plan of publication for 1947:

Part 1A - Books and Selected Pamphlets.
Part 1B - Pamphlets, Serials and Contributions to Periodical Literature.
Part 2 - Periodicals.
Parts 3 & 4 - Dramas and Works Prepared for Oral Delivery.
Part 5A - Published Music.
Part 5B - Unpublished Music.
Part 6 - Maps.
Parts 7-11A - Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints and Pictorial Illustrations.
Part 11B- Commercial Prints and Labels.
Parts 12 & 13 - Motion Pictures.
Part 14A- Renewal Registrations - Literature, Art, Film.
Part 14B- Renewal Registrations - Music.

SUBSCRIPTION. The annual subscription price for the complete yearly Catalog of Copyright Entries is $10.00, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom inquiries and orders concerning the complete Catalog or any of its parts should be addressed.

COPYRIGHT REGISTRATIONS OF MAPS - CALENDAR YEAR 1947 ---------- 1693

The above figure shows the registrations for maps for the calendar year 1947, but does not represent the exact number of entries in this part of the catalog. A few registrations made prior to 1947 are included and a few made in 1947 are omitted and held for inclusion in a later issue of this part of the catalog.
